The ETAC Beauty Kit contains a lightweight range of ergonomically designed body care products that provide minimal effort and strain on hands, arms and shoulders. Each product has a unique shape that makes reaching easier.

You will find the following in your beauty kit:

1 x Body Washer 1 x Long Comb 1 x Multi Purpose Grip with 3 x Nail Files

The body washer is designed to make it easy for the user to clean the body when showering. The wash clothes attached do not absorb water which makes the product light and balanced even when wet. The handles are oval and have a surface which enables a secure grip. The wash clothes can be replaced.

Length: 38cm Unit Weight: 112g

The long beauty comb is the larger length available which is suitable for users who can only reach to their shoulders. The comb is curved to follow the shape of the head meaning that the handle can be held close to the body. This provides high comfort and control when combing the hair.

Length: 37cm Unit Weight: 90g

The multipurpose grip rests securely in the whole hand of the user and has a variety of use. If the user has little hand function it can be difficult to use a nail file. By inserting a nail file into the narrow end, a pedicure can be done with ease. The wider end of the grip can be used for a tooth brush or shaver.

Length: 11cm Unit Weight: 45g
