

MEMORY FOAM MATTRESS

Price: \$20.00 per week

Product Code: MPT MFM4

Call us at 1300 85 45 15 to order

The memory foam mattress is a three layered high risk pressure surface ideal for users with poor mobility or uncertain skin sensitivity. Made from premium material, each foam layer is made of varying densities to maximise the redistribution of pressure. A top layer of high density, temperature sensitive, memory foam conforms to the body's shape, working in combination with the higher resistance support layer to disperse pressure evenly. The special immersion, slow recovery memory foam is ideal for vulnerable areas such as the heels. The core layer and

edges provide form, strength and stability. Foam is covered by an inner cotton cover for added protection.

The Polyurethane top cover features a multi-stretch material for reduced shear and friction on the skin. The mattress has a waterfall skirt to provide protection from moisture ingress, seams are stitched for strength, then welded or tape sealed for maximum infection control. A PVC slip-resistant base helps maintain product position on bed. The cover is also pre treated for protection against dust mites, mould, mildew and bacteria.

Overall Height: 15cm

Care Solution: Ideal for users with poor mobility or uncertain skin sensitivity or at high risk of pressure injuries.
