The Rollator Voyager Gutter Frame is thoughtfully designed to support users in maintaining an upright, comfortable walking posture, promoting independence and confidence. The padded forearm cuffs are fully adjustable both laterally and vertically, ensuring a customised and secure fit for optimal support.

Crafted with a durable, powder-coated silver steel frame, this rollator is built for both indoor and outdoor use, providing stability wherever you go. It also includes a convenient front hook-on basket for carrying essentials with ease.

Key features

Enhanced Safety: Equipped with loop-style, lockable hand brakes for controlled stopping.

Smooth Mobility: Features four solid 8" wheels for easy navigation.

Custom Comfort: Adjustable cuff height (98 cm – 112 cm) and seat height (58 cm) for personalized support.

Sturdy & Reliable: Durable, powder-coated silver steel frame suitable for indoor and outdoor use.

Convenient Storage: Comes with a front hook-on basket for carrying essentials.

Please Note: This rollator is not designed to assist users in standing from a seated position.

Designed with care, the Rollator Voyager Gutter offers the stability and comfort you deserve on every step of your journey.
